

WEBLIOGRAPHY

Fundamentals of Nursing

Fundamentals of nursing are the courses that teach the basic principles and procedures of nursing. In the fundamentals of nursing, the student attends classes and provides care to chosen patients. The course highlights the significance of the fundamental needs of humans and competence in fundamental skills as prerequisites to providing extensive nursing care.

- **Nursing Fundamentals II**

This subcourse is approved for resident and correspondence course instruction. It reflects the current thought of the Academy of Health Sciences and conforms to printed Department of the Army doctrine as closely as currently possible. Development and progress render such doctrine continuously subject to change.
