SCHOOL OF EDUCATION
GRADUATE UNIT

DOCTOR OF PHILOSOPHY IN DEVELOPMENT MANAGEMENT
MAJOR IN EDUCATIONAL ADMINISTRATION
(Academic Track)

Development trends in Asia and in the world are redefining the leadership role in organizations including educational organizations. In the Philippines and in Region IX in particular, the socio-economic structures of BIMP-EAGA, the Eco-Zone, and the peace process have great implications on education. These new directions need education leaders who can handle and manage change in a rapidly changing world. With this, the Doctor of Philosophy in Development Management (PhD Dev Mgt) program is designed to prepare education and business leaders to manage, innovate, and solve problems amidst socio-economic developments.
