LAW

Masacayan, Earl Louie, Labor Laws in the Philippines: A Logical and Creative Re-statement 2023 Edition Quezon City, Philippines: Central Book Supply, Inc. c2023 [CO-FI KPM 1214 .M37 2023]

Labor Law and its practice in the Philippines have been afforded desultory attention and sometimes have been derisively referred to as the realm of newly-minted, neophyte members of the Bar, alien territory not trudged by seasoned and veteran practitioners. Reflecting this atmosphere is a considerable dearth of in-depth jurisprudence as a consequence of puny attempts at crafting doctrinal issues requiring the attention of no less than the highest court of the land. Added to this predicament is an utter lack of referential materials to enhance a more thorough and scholarly approach dissecting and analyzing problem areas in interpreting the provisions of the labor code, including its amendments.

Cruz, Isagani A., International Law Quezon City, Philippines: Central Book Supply, Inc. , [c2024] [CO JX 3695.P6 C889 2024]

This is the third work done this year by the writer in commemoration of the birth centenary of the author.

As with the first two, this edition is humbly offered by the writer, his son, to somehow honor him.

This volume incorporates essential references to recent important pronouncements, and events, in the field of International Law, which remains important to this day, and especially today.

This, despite many criticisms against it from sectors which maintain, and even promote, the view that any law is only as good as its enforcement.
